

Gainful Employment Disclosures – 2019

Program Name *Right Skills Now for Manufacturing*

This program is designed to be completed in one year/two academic semesters.

This program will cost \$15,569 if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting, but may have changed. (The cost figure includes estimates for books, supplies, fees and equipment).

Of the students who completed this program within normal time, the typical graduate leaves with \$9,166 of debt. *{The median cumulative amount of debt for all Title IV students including private, institutional, and Federal student debt for students who received Title IV aid at any point for attendance in the program.}*

{Select one or more of the following statements. Your institution is required to provide information about whether this program meets licensure requirements for any states in the metropolitan statistical area (MSA) in which the institution is located, as well as for any states for which the institution is aware of whether the program satisfies all educational prerequisites to qualify a student for licensure. Select one or more of the options and the names of the states for which that statement applies.}

The following States do not have licensure requirements for this profession: Minnesota
