# Founders Week *and* Presidential Inauguration

RIGHT  
President Emeritus  
Dr. Ben Wright (middle)  
at his retirement party,  
which was held during  
Founders Week.

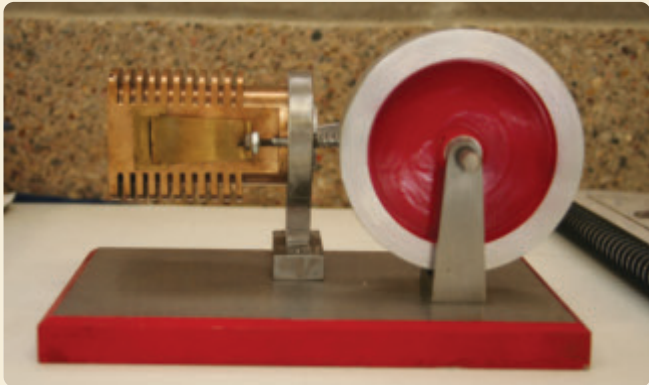

ABOVE Dunwoody sponsored an on-campus Medallion Hunt as part of the Founders Week festivities. Student Mike Berggreen (left) accepts his reward for finding the medallion (which was fabricated under the direction of Machine Tool Technology Senior Instructor Brian Nelsen) from Student Government President Alyyse Johnson-Strandjord.

ABOVE The medallion was hidden near the original main entrance to Dunwoody.

ABOVE Student Services and Student Government teamed up to collect cash donations and school supplies for the Urban League Academy.

Dunwoody College held Founders Week Sept. 14-18. The week featured a series of events and culminated in the inauguration of the College's ninth president — Dr. Richard J. Wagner — the afternoon of the 18th. President Wagner also presented a forum on integrating community service into the learning process. The week included a fundraiser for Urban League Academy, a student work showcase, Fall Fling (featuring activities and lunch for the students), student worker and student resource fairs, a colloquium on Dunwoody faculty as ambassadors for change, and the retirement party for former President C. Ben Wright.

ABOVE A showcase of student work was on display in Carlson Commons during Founders Week, including projects from Interior Design (pictured at top), Machine Tool Technology (pictured above) Arts and Sciences, Graphic Design, Computer Networking Systems, Architectural Drafting and more.

LEFT Dean of Learning Ann Iverson (left) and President Rich Wagner (right) at the Sept. 18 inauguration ceremony.

LEFT Fall Fling featured the usual roster of volleyball (pictured left), touch football, ping-pong and poker, but this year also included a spin art station (pictured far left) where students could create colorful designs.

Jack Mowry (center) with son Sean and daughter Trisha.

### Jack Mowry: crafting a family business

**Jack Mowry** had already attended Dunwoody once — for a six-month course in machining — and was working in a machine shop when he decided that what he wanted to do was become an engineer. His employer told him that he should go back to Dunwoody for mechanical drafting so he did, graduating in 1971.

Jack received two job offers, but both offered wages less than he had been making as a machinist, so he decided to go back to the machine shop.

“I never got paid to draw a line,” he said. “But the ability to really read a technical drawing and feel comfortable — that confidence, that ability — I got from going through Dunwoody.”

And that ability and confidence served him well a few years later when he started up the machining business Metal Craft in Elk River (with a partner who he bought out less than two years later).

Metal Craft continued to grow throughout the 1980s, but Jack was looking for a way to bolster business due to the cyclical nature of machine shop orders. He had been reading about an expected growth in parts of knee and hip replacements and decided to begin creating close-tolerance parts for surgical instruments. The move paid off, and today Metal Craft supplies parts to medical companies nationwide, including Medtronic.

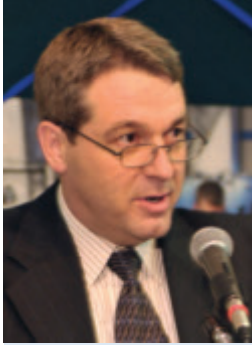

In 1996, Metal Craft acquired Riverside Machining and Engineering, which specializes in the precision machining of aluminum heat sinks, cold plates and heat exchangers. Today, the two companies employ 160, including Jack’s daughter Trisha, who serves as president, and son Sean, who serves as vice president of operations. Jack is now acting as an adviser after many years leading the companies, but he still considers all of his employees family.

And he isn’t slowing down one bit. One of his major pursuits is sailing, a hobby born out of a childhood fascination with world travel from reading National Geographic. Back in the early ‘90s, Trisha signed him up for a sailing class on Lake Superior and before long he had acquired the sailing boat *The Bréagán* (which means toy or plaything in Gaelic). Jack started out with the boat in Lake Superior and, sometimes solo, sometimes with friends, has since sailed it to Ireland, all around northern Europe, down into the Mediterranean and then over to the Caribbean. It’s currently docked in Panama. Jack plans to head down there in January and sail to Columbia.

“It’s a wonderful boat — very seaworthy,” he said. “I have so much confidence the boat will get me there.”

## Anagram International: local support, worldwide reach

**A**nagram International, Inc. first began to see Dunwoody as a place to generate employees in the early 1990s. Since then the relationship has continued to grow: the company provides scholarships to students and donates equipment, film and raw materials for use in the print labs.

**Paul Ansolabehere, Vice President of Operations and Human Resources at Anagram International Inc.**

Anagram is the world leader in foil balloon manufacturing. The company supplies most of the foil balloons found in grocery stores and party supply stores — the ones that show up at birthday parties and graduations and other occasions. Their product offerings include in-house designs, but also include many licensed designs and licensed characters (cartoon characters, pop singers, movie characters, etc.).

In addition to its donations to the College, Anagram shows its commitment to the Dunwoody by encouraging its executives to provide industry feedback

and help out with Dunwoody events. For example, Paul Ansolabehere, Vice President of Operations and Human Resources, has spoken to classes in the Design & Graphics Technology department as well as at several College events.

**“We support Dunwoody because they are grooming our future employees and, quite likely, future members of our management team,”** said Paul. “The printing industry is one of the larger industries in Minnesota. If we want that to continue, we need to support the educational piece of that. Dunwoody is one of the better schools at producing graduates that also know how to work with the equipment.”

Skilled workers are an important way that Anagram stays competitive globally because they can run multiple machines in the company’s highly automated manufacturing facility and so create a large, quality output with fewer employees.

Founded in 1977, and part of the Amscan family of companies since 1998, Anagram is located in Minneapolis. Its products are marketed in more than 85 countries.

## Pentair’s commitment to education

**F**rom its founding in 1966, **Pentair, Inc.** has sought to give back to the community, and it has generously included Dunwoody College in its giving program for more than 20 years now.

Pentair formalized that commitment in 1998 when it established The Pentair Foundation. The Foundation funds programs in a variety of areas, including water conservation, but education is also a major focus.

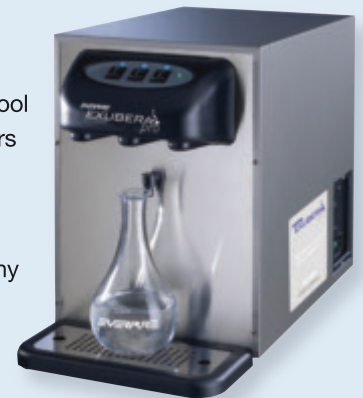

**“One of our primary areas of focus is education, including support of higher education,”** said Susan Carter, manager of The Pentair Foundation. “And we support not just traditional learners, but also those in nontraditional programs. Dunwoody is a great example of that with the emphasis on hands-on learning and a history of getting students into the workforce. We want to support our grantee institutions and the opportunity to help people wherever they are.”

More recently, the Foundation has provided a grant to Dunwoody Academy because of its emphasis on providing opportunities to Twin Cities youth interested in combining

college-prep focused high school education with technical careers exploration and hands-on learning.

Pentair, Inc. is a global company with a diverse portfolio of offerings, including flow technologies, filtration solutions, pool and spa equipment and enclosure and thermal management products that house and protect sensitive electronics and electrical components. Headquartered in Minneapolis, it had 2008 revenues of \$3.35 billion. Its Water Group is a global leader in providing innovative products and systems used worldwide in the movement, treatment, storage and enjoyment of water.

Its pumps and other water equipment were used in the clean up after Hurricane Katrina and products and personnel from its FoamPro business were used in fighting the longest-burning structural fire in U.S. history — the fire that resulted from the Sept. 11, 2001 destruction of the World Trade Towers.

## COMPUTER TECHNOLOGY

# Keeping pace with the *speed of change*

**D**unwoody College’s focus on applied education means that curriculum must match the skills and knowledge needs of industry. No area of Dunwoody experiences this quite so keenly as Computer Technology, the department which prepares students to enter the field of Information Technology (IT). In IT, every software or operating system update, every change to networking protocols or Internet standards, every new piece of hardware or electronic device potentially impacts the services and support they provide companies, organizations and consumers.

“IT professionals need to be willing to embrace technology,” Nate Blommel, Director of Computer, Graphic Design and Printing Programs, said. “And that’s especially true when it comes to our faculty.”

**“Dunwoody is the first place USFamily.Net turns to when recruiting new members to our staff.”**

*Tom O’Brien, Director of Operations*

As Nate explains, the fundamentals remain constant — web programming requires building a program or function from basic units of code no matter which computer language is used and no matter what device it works on — but the specifics are changing all the time. For example, three years ago, one of the new topics of the Emerging Technologies (CNTS 231) class was wireless networks and VOIP (Voice Over Internet Protocol, that is, using an Internet connection to make phone calls). Currently, virtualization is being integrated into the class. Virtualization is the process of using software to emulate hardware; an entire computer can be emulated therefore creating a virtual machine.

One way in which faculty members accomplish this is by keeping their certifications up to date and adding new ones. In the IT world, certifications are generally centered on certain standards, skills or products that are widely used. For example, the Cisco Certified Network Associate certification focuses on the installation, configuration and troubleshooting of Cisco-built routers and switches that companies use to connect their network(s) to the Internet.

“All of the faculty, myself included, make sure to keep our certifications up-to-date and add new ones when we have the time and passion,” Nate said. “In fact, Brian Carlson, one of our Computer Networking Systems instructors and a Dunwoody alumnus, has taken this to an amazing level — at the age of 21, he already has four IT certifications.”

### New programs

Another way to keep up with changes in technology is to offer new programs or expand old ones. The most dramatic move Dunwoody made was when it merged with NEI College of Technology, a leader in IT education, in 2003. The merger beefed up Dunwoody’s Computer Networking Systems program — it is now the second most popular field of study on campus. It also brought a whole new dimension of IT to the mix, which with a few changes over the years is now the Web Programming and Database Development program, which focuses on the skills needed to create websites and web applications, especially those that interact with databases. In addition, a Computer Networking Technician program is offered as part of Dunwoody’s Evening College.

More recently, the College created a Management Information Systems concentration for the bachelor’s degree completion program in applied management. The degree

**Computer Networking Systems Instructor Brian Carlson built this working computer while he was a Dunwoody student. The housing is made out of Legos.**

concentration is geared toward working IT professionals with two-year degrees who are looking to move up into management roles, for example as the manager of a help desk or a director of IT services position. The curriculum covers everything from managing employees to working with outside vendors to database technologies and system analysis.

Whether they choose Computer Networking or Web Programming, graduates from Dunwoody's Computing Technology programs are well-positioned to find employment.

"There are generally two tracks that our graduates take," Nate said. "Those who work for big companies end up becoming specialists. They work on the help desk, or focus on keeping the servers running, or work on the wireless infrastructure. And some of our students end up at smaller companies where they basically become the Network Administrator and do a lot of everything."

And often, no matter the size of the company, graduates end up working alongside other alumni. Case in point: At USFamily.Net, an Internet and telecommunications service provider, 9 out of 21 employees within their technical support call center are Dunwoody graduates or students.

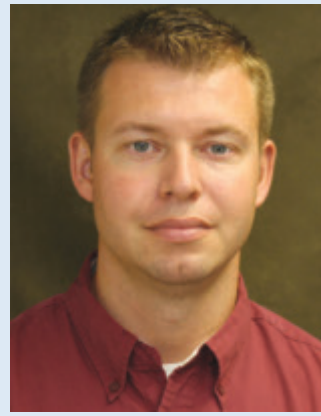

"Dunwoody is the first place USFamily.Net turns to when recruiting new members to our staff," said Tom O'Brien, Director of Operations of USFamily.Net/Velocity Telephone. "When a company keeps coming back to hire more, you must be doing something right, especially in the ever-changing world of IT."

## Computer Networking Systems

Graduates from this program generally are involved in the building, connecting, maintaining and troubleshooting of computers within corporate computer networks. This means that they work with the hardware (computers and servers), software and operating systems, and the network that comprise an organization's main IT infrastructure.

## Web Programming and Database Development

Graduates from this program create websites and web applications for a variety of environments, including standard Internet browsers and sites and applications for mobile devices. They learn a variety of web development, programming and database languages and systems, including XHTML, Java and MySQL.

## Faculty Profile: Nate Blommel

**Nate Blommel** has always had a natural knack with computers, but what he really wanted to be was a teacher. So he earned an undergraduate degree in business education and finance and landed a job teaching business classes at Edina High School. His instincts were right on target.

"I went into teaching because I enjoy helping people 'see the light bulb go on' and understand something at a higher level," he said. "Whether the topic is finance, business, or computers, learning a particular model or how and why something works is enjoyable, provides a foundation, and can take you places in life."

Before long, his love of computers merged with the teaching job when Edina High needed someone to step in and teach a computer networking class. Nate attended training and then earned his Cisco Certified Network (CCNA) certification. Shortly afterward, he began teaching at NEI College of Technology.

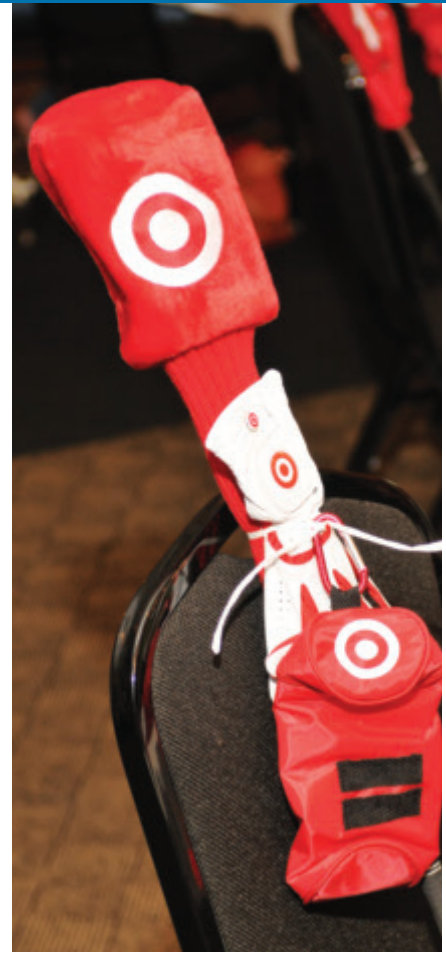

Nate came over with the NEI merger and became Program Manager of Computer Programs in 2006. Earlier this year he was promoted to Director of Computer, Graphic Design and Printing Programs.

But even with the new responsibilities, Nate makes a point of keeping up his CCNA certification and teaching at least one class a quarter.

"I still teach," he said. "I really enjoy the classroom experience, and as a director, my focus is to support the faculty. Seeing the challenges they face firsthand is very useful. Plus, the classroom experience is very rewarding."

Left to right: Bob Wicklund, Troy Nygano, Jeff Maynard and Dave Sherman.

## Dunwoody crowns a new champion

After three years of winning the Alumni and Friend Golf Tournament, Parsons Electric's streak was brought to an end by a winning foursome from the Baker Foundation (pictured above).

Dunwoody's golf tournament returned to the Legends Golf Club this year, which is a championship course with an emphasis on the native environment. Thanks to the tournament sponsorships and donors, Dunwoody will award 10 students a \$1,000 scholarship.

Many thanks to the Golf Committee and Chair Todd Legut for planning the event.

## A big thank you to our sponsors

Dunwoody extends its thanks and appreciation to the companies who contributed financially to the success of this year's golf tournament.

Front row, left to right: Brittney Brown, Interior Design; Kay Phillips, emcee and member of the College's Board of Trustees; Ann Pelton, Press and Finishing Technology; and Sarah Oerter, Interior Design.

Keynote speaker LouAnne Reger.

## Kate L. Dunwoody Women's Luncheon

Nearly 150 students, faculty, staff and guests attended this year's Kate L. Dunwoody Women's Luncheon that acknowledged the achievements and significance of women at Dunwoody, past and present, who exhibit character traits of the late Mrs. Kate Dunwoody.

Karla Marshall, an Interior Design student and a recipient of a Kate L. Dunwoody Scholarship, thanked all supporters of Dunwoody who help students realize their dreams to get an education. The other recipients of the scholarship were Brittney Brown, Interior Design; Linda Fiets, Graphic Design; Alysse Johnson-Strandjord, Graphic Design; Holly Longen, Web Programming and Database Development; Sarah Oerter, Interior Design; and Anne Pelton, Press and Finishing Technology.

The keynote speech was delivered by LouAnne Reger, owner and CEO of J&L Steel and Electrical Services, a more than 30-year old company in Hudson, Wisc. that provides structural steel, tension rebar and ornamental rail. LouAnne's address was entitled "Being Grateful" and reflected on her lifelong journey, and she said her mantra is: "If you see it, and believe it, you can achieve it, no matter what it may be."

## 50-Year Club, Legacy Association enjoy vintage aircraft museum

**M**ore than 250 alumni and friends picnicked in a 45,000 square foot airplane hangar among 35 antique and one-of-a-kind aircraft from America's Golden Age of Aviation on Aug. 12 at the Golden Wings Museum. The museum features airplanes from the 1920s and 1930s and is located at the Anoka County Airport in Blaine. Charles Lindberg and Amelia Earhart are among the notable aviators who have flown some of the aircraft.

For the first time the 50-Year Club Lunch and the Legacy Association Lunch were held together. The 50-Year Club is open to alumni who attended Dunwoody 50 or more years ago. The Legacy Association is a special group of alumni and friends who have provided for future generations through a gift in their will or trust. During the lunch, alumni connected with classmates and made new friends while they reminisced about the school days of time clocks, the bakery, and Dunwoody's no-nonsense learning style.

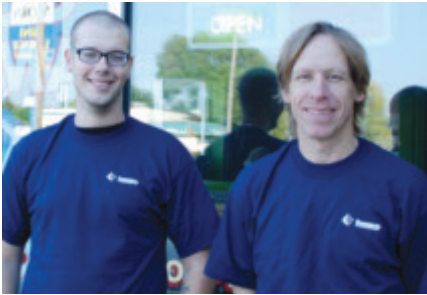

**1** A record turnout of alumni from the Class of 1959 were inducted into the 50-Year Club. Gordie Beneke, Class of 1959 and retired faculty of Architectural Drafting and Estimating, recognized the Class of 1959 during the program.

**2** Dunwoody Board of Trustees member Jim Fox (L) thanked museum owner Greg Herrick for hosting the Dunwoody gathering at Golden Wings Museum, a private collection of 35 vintage aircraft which is one of the largest holdings of its type in the U.S.

**3** A thank you to Dunwoody students for sharing stories and comparing differences of Dunwoody today with 50 years go with 50-Year Club and Legacy Association alumni and friends.

**4** President Rich Wagner spoke to the group.

**2009/1986**

**Andy Collins** (left), 2009 Automotive Service, and **Duane Carlands**, 1986 Automotive Service, are employed at Good Carma Repair and Service in Northeast Minneapolis. Andy, a recent graduate, says that his Dunwoody training has opened doors for him and given him a good foundation for his career in the Automotive Service industry.

**2004**

**Joel Ebbers**, Electrical Construction, married Katherine Pillsbury on May 23 in the Lakeview Covenant Church in Duluth. Ebbers Works as an electrician at Up North Plastics in Cottage Grove.

**2002**

**Corey Bass** and **Amanda Bass**, Architectural Drafting and Estimating, welcomed their first child on June 13. Lily Ann Bass weighed in at 8lbs 5oz and was 20.5 inches long.

**1992**

**Ronald Flor**, Engineering Drafting & Design Technology, reconnected with his former Dunwoody instructor Al Jaedike during a recent visit to the school. "It's been a long time since I've been back and the changes are certainly impressive. Dunwoody

continues to be in good hands and I look forward to speaking to second-year students and getting involved in Dunwoody's Program Advisory Committee."

**1970**

**Joseph A Nolan**, Mechanical Drafting, received the 2009 Bemidji Area Director's Award for Excellence. Mr. Nolan works as an Engineering Technician for the Indian Health Service Sault Sainte Marie Field Office which serves eight Michigan Tribes by providing sanitation facilities assistance to individual Tribal members and Tribal communities. Pictured from left to right are Dan Wallis, Joseph Nolan and John Butler.

**1938**

**Emil Steffen**, Master Electrician's License, celebrated the 70-year anniversary of the company he began, Steffen Electric.

**1936**

At age 94, **Sverre Ambjor**, Electrical, enjoys repairing clocks and watches from his home-based workshop in Seattle, Wash. Thanks to his Dunwoody training, he enjoyed a successful career with IBM as a field manager for Boeing.

**Save the date for these exciting upcoming events!**

**John P. Walsh**

John P. Walsh, who served as president of Dunwoody Institute from 1968 to 1978, died Dec. 10, 2009. He was 94.

Walsh began his career as a machinist and then later served as a machine shop instructor at Dunwoody. He became president in 1968 and during his decade-long tenure Dunwoody dedicated the "Warren Building," which had been donated to the college by the estate of H.E. Warren; graduated its first women from the full-time Day School programs, remodeled the Architectural and Baking departments and the Decker Auditorium; expanded Dunwoody training internationally; and launched the \$6 million "Vital Source" capital campaign.

The College named its manufacturing technology center in honor of Dr. Walsh and his wife Marie in 2008. A resident of New London, N.H., at the time of his death, Dr. Walsh is survived by his wife. The Walsh family has provided generously for Dunwoody in their estate plans.

# 2008-2009 Annual Report

## DEAR FRIENDS:

A quote from Charles Dickens' *A Tale of Two Cities* best summarizes 2009: "It was the best of times. It was the worst of times..." By almost every measure, the 2009 fiscal year was the most challenging in Dunwoody's long, storied history. A deeply troubled economy, declining equity markets and a growing pension liability — along with a subsequent change in our credit positions — resulted in a significant negative change in net assets from the previous year. This created a very difficult operating environment, requiring substantial expense cuts throughout the college, and, sadly, costing 25 valued Dunwoody employees their jobs.

However, just as you would expect, the Dunwoody community responded. Faculty and staff faced the situation head-on and remained focused on our mission of teaching and learning. As a result, we saw great progress in key areas and celebrated several outstanding individual and institutional accomplishments. We also saw continued generous financial support from employees, alumni, board members, industry partners and other key contributors.

These are just some of the many 2009 highlights

- We successfully completed our *Good to Great* campaign, which reminded us of the many outstanding recent campus improvements
- The welding lab was transformed into a cutting-edge training facility
- Dunwoody won the "Incubation of Young Talent" award from Enterprise Minnesota magazine
- HVAC senior instructor Tom Kleinman was named one of eight finalists for American Technical Educators Association's Outstanding Technical Teacher award
- Dunwoody's innovative Youth Career Awareness Program celebrated its 20th anniversary
- The College's first Health Sciences and Technology programs were launched
- Dunwoody Custom Training went green and found great interest in its Residential Energy Auditing program
- Architecture and Construction Supervision students competed in the National Association of Home Builders competition in Las Vegas
- Dunwoody students took three first-place awards at SkillsUSA Minnesota and fared well at the national competition
- Dunwoody robot *Rugburn* took first place in the Midwest Robotics League championships
- A group of Dunwoody students built homes with Habitat for Humanity
- A Machine Tool Technology student placed 3rd in the MasterCAM competition
- Our Phoenix Challenge team took two first-place awards in a national flexography printing competition
- Dunwoody Instructors volunteered at Minnesota Technical Educators Association High School Super Mileage Challenge at Brainerd International Raceway
- Chrysler acknowledged the excellence of Dunwoody's Chrysler College Automotive Program by investing an additional \$13,000 in the program
- Our new websites were launched
- Dunwoody TV commercials won two national first-place awards
- The Career Services department launched numerous Competitive Job Search Seminars to help both recent graduates and alumni

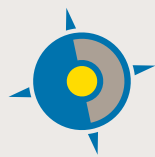

**And, most important, we graduated nearly 600 students from Dunwoody.**

The 2010 academic year is well underway and I am pleased to report that our finances are improving, great teaching and learning occurs on our campus every day and our future is bright. We continue to be mission-focused and student-driven and I am absolutely certain that Dunwoody's best days lie squarely ahead of us.

*Rich Wagner, Ph.D.*  
President

**Rich Wagner, President**

**Dunwoody**  
COLLEGE OF TECHNOLOGY

### MISSION

The mission of Dunwoody is to provide career-focused, applied education leading to immediate jobs and successful careers in business and industry.

### CORE VALUES

- We value practical, applied learning.
- We believe in instilling a strong work ethic.
- We embrace continuous quality improvement as our way to become best in class.
- We value a diverse faculty, support staff, and student body and their unique contributions to an inclusive Dunwoody community.
- We value high performance within an environment of trust, respect, teamwork, and personal accountability.

### VISION

Dunwoody's vision is to provide "for all time" a place where people of diverse backgrounds receive learning opportunities that prepare them for "the better performance of life's duties."

## 2008-2009 Dunwoody Recognition of Contributors

As a private, tax-exempt organization, Dunwoody College of Technology could not prosper without support and gifts from individuals, corporations, foundations and other community organizations. This list of contributors honors those people and organizations who gave to Dunwoody from July 1, 2008 through June 30, 2009. Each of these contributors deserves our deepest thanks and appreciation. Businesses owned or operated by Dunwoody alumni are identified with \*. The names of alumni contributors are followed by their year of graduation or last enrollment. The names of current employees of Dunwoody College of Technology are followed by <sup>S</sup>; the names of retired employees are followed by <sup>R</sup>. If your name has been inadvertently omitted or misspelled, or if your company is alumni-owned or operated and has not been so indicated, please accept our sincere apologies. **Please bring the oversight to our attention by contacting the Development Office at (612) 381-3052, or at mmarion@dunwoody.edu.**

### DUNWOODY LEGACY ASSOCIATION

The Legacy Association recognizes friends who have, like our founders, William and Kate Dunwoody, provided for the school through their wills, trusts, gift annuities, and other deferred gifts. In addition to the individuals listed below, 29 donors have informed the school of their intention to make deferred gifts to Dunwoody but prefer to remain anonymous. The names of legacy donors who have passed are marked with <sup>D</sup>.

William H. and  
Kate L. Dunwoody<sup>D</sup>  
Sverre H. Ambjor 1938  
Clarence E. Anderson<sup>D</sup> 1939  
Donald Anderson 1950  
Robert and  
Sandra Anderson 1968  
Donald K. Bauer<sup>D</sup>  
R. Ray and Alice Bauman<sup>D</sup>  
Russell W. Becken<sup>D</sup> 1933  
Russell H. Bennett<sup>D</sup> 1932  
Sue A. Bennett  
Dr. M. James<sup>R</sup> and  
Nancy R. Bensen  
Paul Bergston<sup>D</sup>  
Ann L. Bollmeier, 1976, and  
George Lowing  
Earl M. Bower<sup>D</sup>  
Fosten and Beverly Boyle  
Silas and Maureen Brannan  
1950 & 1959  
Roger and Fay Bredesen  
Lowell E. Brown<sup>D R</sup> 1960  
Curtis, 1969, and  
Jenelle Brumm  
Steve, 1968, and  
Lynette Bryant  
Bob, 1952, and  
Dodie Burdick  
Robert W. Carlson, Jr.  
Mrs. Robert W. Carlson, Sr.<sup>D</sup>  
Keith M. Cary<sup>D</sup> 1938  
Keith, 1939, and  
Dona Caswell  
Parker M. Congdon 1940  
Joseph A. Craig<sup>D</sup> 1938  
Ray Crowder 1959  
Ronald W. Curtis 1939  
Donald Dahltorp<sup>D</sup>  
Howard C. DeWitt<sup>D</sup>  
George V. Doerr, Jr.<sup>D</sup>  
Harry M. Dye<sup>D</sup>  
Merle R.<sup>D</sup>, 1950, and  
Eunice<sup>D</sup> Eggen  
Al Einberger 1978  
Morris, 1962, and Kristi Eisert  
Joel A., 1960, and  
Ann Eiftmann  
Donald R.<sup>D</sup>, 1949, and  
Helen T. Esala

Marvin, 1970, and  
Dorothy Zweig

## ANNUAL FUND DRIVE

July 1, 2008 – June 30, 2009

### ALUMNI DONORS

#### MASTER BUILDERS

Gifts of \$10,000 and above

#### Baking

William Entenmann 1950

#### Electronic Systems Technology

Jay W. Johnson 1978

#### Machine Tool Technology

Joel A. Eiftmann 1960  
*Eiftmann Family Fund,*  
*The Minneapolis Foundation*

#### CHARLES A. PROSSER CLUB

Gifts of \$5,000 to \$9,999

#### Automotive Service Technology

Maurice J. Wagener 1957  
*Morrie's Automotive Group\**  
*Morrie's Subaru\**

#### Machine Tool Technology

Arthur J. Popehn 1940  
*Catholic Community Foundation*  
Ernest J. Skramstad 1938

#### Power

Eugene C. Coan 1946

#### JOHN BUTLER CLUB

Gifts of \$2,500 to \$4,999

#### Air Conditioning

Joseph P. O'Shaughnessy 1981

#### Architectural Drafting and Estimating Technology

Gary C., 1968, and Peg Janisch

#### Electrical Construction

Anonymous  
James Basara 1975  
Michael Hanson 1985

#### Welding

Mark H. Falconer 1968  
*Minneapolis Oxygen Company\**

#### DUNWOODY CLUB

Gifts of \$1,000 to \$2,499

#### Air Conditioning

Daniel H. Grider, Sr. 1962  
William A. Jordan 1969<sup>S</sup>  
Jeff M. Ylinen 1979<sup>S</sup>

#### Architectural Drafting and Estimating Technology

James A. 1975, and Karen Frisell  
Milton D. Halvorsen 1940  
William A. MacPherson 1976  
John W. Schletty 1957

#### Auto Electrical

Peter A., 1965, and  
Jane B. Hansen

#### Baking

Dean A. Mahlke 1952  
Donald E. Snyder 1957

#### Civil Technology and Land Surveying

Keith P. Caswell 1939  
Thomas J. Schany 1958

#### Computer

Ricky Langness 1993

#### Electrical Construction

Steve Bryant 1968  
Dana L. Casey 1967  
Harvey Dahl 1961  
Donald D. Dolan 1964  
LaMont J. Herman 1983  
Douglas L. Olson 1968

#### Engineering Drafting and Design Technology

Harold N. Anderson 1940  
John R. Dolny 1941  
Vernon L. Discher 1948  
Bernard W. Gaffron 1951  
Allen C., 1974<sup>S</sup> and  
Mary Anne Jaedike<sup>S</sup>  
William T. Melchert 1971  
Jack T. Mowry 1971

#### Machine Tool Technology

Anonymous  
Parker M. Congdon 1940  
Raymond K. Newkirk 1965  
Glenn T. Tilbury 1952

#### Pipefitting

Timothy D. Hayes 1977

#### Printing and Graphics Technology

Frank Schochet 1935  
*Minneapolis Jewish Federation*

#### Refrigeration

Theodore A. Ferrara 1977

#### Sheet Metal

Joseph M., 1982, and Lisa Lynch  
*West Air Heating &*  
*Air Conditioning \**

#### PRESIDENT'S CLUB

Gifts of \$500 to \$999

#### Air Conditioning

Gary L. Johnson 1961  
Robert S. Suppan 1939

#### Applied Management with MIS Emphasis

Murray P. Yeager 2009<sup>S</sup>

#### Architectural Drafting and Estimating Technology

Wayne Glanton 1946  
Harlan E. Hallquist 1968  
Bruce W. Schmitt 1967

#### Auto Electrical

Bruce C. Lestico 1970  
Steve W. Robinson 1960

Rafelene Johanneck visits with students who received her scholarship. "My husband had always been so appreciative of his Dunwoody training, so I started an annual scholarship fund to help young people. It's been more than 10 years now and I still get excited when I meet my students. They are so smart and such good kids," said Rafelene, who established the Tiny Johanneck Memorial Scholarship Fund.

#### Automotive Service Technology

John Adamich's Dodge of  
Burnsville  
Gerald Bugatti 1956  
Robert L. Porter 1970  
Robert E. Poupore 1950<sup>R</sup>

#### Building Construction

Gary H. Frana 1962  
Larry A. Raasch 1977

#### Computer Networking Systems

Andhi R. Michaux 2003  
Murray P. Yeager 2005<sup>S</sup>

#### Electrical Construction

Gilroy G. Arvig 1953  
Michael K. Buck 1973  
Michael J. Feesl 1964  
*Drivers Referral Service, Inc.\**  
Timothy D. Holmberg 1982  
Roman H. Meuwissen 1961  
Norwood G. Nelson 1960  
Leslie R. Trapp 1973  
John P. Werler 1979

#### Electronics

Clayton Bartholow 1983<sup>S</sup>

#### HVAC

Tony Ferrara 1972

#### Machine Tool Technology

Carl P. Graf 1957  
Arnold R. Lidfors 1940  
*Quality and Service Machine Tool*  
Richard A. Nelson 1962  
Donn, 1964, and Cynthia Thomas  
*American Center for Philanthropy*  
Duane G. Treiber 1958

#### Printing and Graphics Technology

Lee Jessen 1953  
Mark A. Kramer 1975  
Howard L. Siewert 1956

#### Refrigeration

Jack R. Lake 1961  
Chell C. Luesse 1990<sup>S</sup>

#### Sheet Metal

Kenneth E. Malmstrom 1933

#### CENTURY PLUS CLUB

Gifts of \$250 to \$499

#### Air Conditioning

Frank J. Berger 1955  
*Berger Repair Service*  
Darrell Brommer 1954  
Al Einberger, Jr. 1978  
Walter G. Ewer 1955  
Fred J. Menger 1964  
Laudy E. Ribar 1949  
*L. E. Ribar Company, Inc.\**  
M. Douglas Rolland 1967  
Floyd H. Schneeberg 1941

#### Architectural Drafting and Estimating Technology

David D. Anderson 1971  
Marvin Bosshart 1953  
Dennis P. Chartrand 1970  
*Steel Structures, Inc.\**  
Ronald D. Kreinbring 1967  
Gregg A. Paschke 1983  
Kevin E. Rolf 1973  
Donald C. Schroden 1971  
William Seefert 1994  
Christopher E., 1981, and  
Jean Swingley  
Jim L. Trucker 1961

## ANNUAL FUND

### Alumni Donors, *continued*

#### Automotive Service Technology

Bruce Bachman 1968  
Carol W. Bell 1960  
Lewis R. Cradit 1954  
Gary G. Griebel 1965  
Jerome A. Holtz 1976  
Hardy R. Huettl 1966  
Raymond E. Juengel 1956  
Thomas F. Stertz 1973  
Kevin C. Weiland 1971

#### Carpentry

Orland C. Anderka 1967  
Arlie W. Johnson 1952

#### Civil Technology and Land Surveying

James A. Gay 1986  
John C. Hosfield 1970  
*Hosfield & Associates\**

#### Electrical Construction

Dale C. Hartman 1946  
Gary G. Novak 1963

Stanley C. Anderson 1958  
Dean W. Burton 1961  
Donald J. Driessen 1959  
Jim L. Kurth 1950

"I wouldn't be at Dunwoody without scholarship help because it is difficult to get loans and only working part-time while I'm in school doesn't cover my expenses. I am very grateful to get help!" said Latoya Bowers, sixth quarter Electronics student.

Douglas G. Jeranson 1960

Dunwoody College Board of Trustees member Talla Skogmo meets with Tracey Malone, the recipient of her scholarship. Talla said: "I am thrilled to be able to provide this scholarship to a deserving Interior Design Student. I decided to create this scholarship to continue to support those coming up though the ranks the correct way by getting education in Interior Design!"

Harold and Ginger Anderson with their awardee. "We were really pleased to meet our first scholarship awardee and were so impressed by her," said Harold who started an annual scholarship with his wife Ginger as a way to give back for the education he received at Dunwoody in Engineering Drafting and Design.

 David M. Thomes 2009

“Seeing is believing and having the opportunity to meet our scholarship recipients reinforces why companies including Rimage need to support Dunwoody. There is no better investment than education because these students represent our leaders of the future,” said Bernie Aldrich, CEO of Rimage Corporation (back row, fifth from left), who met with students who received Rimage Co. scholarships.

Lindsey Lang (center) of Kopp Investments poses with awardees. "The Kopp Family Foundation is pleased to provide scholarship support to the students at Dunwoody College of Technology. We believe that an education is the first step towards a great future. Dunwoody students receive cutting edge applied education that prepares them for the real world and beyond," Lindsey said.

**Ruth Grigsby (left) came from Atlanta to meet her scholarship recipient at the Dunwoody Scholarship Luncheon. She said it was a wonderful way to share stories about her husband's experience and hear from her student about Dunwoody today. She started the Roger L. Grigsby Endowed Memorial Scholarship Fund to recognize her husband who attended Dunwoody in the Electrical program in 1954. He passed away in 1993.**

Student Affairs Officer

## Ways to Give

More than 85% of Dunwoody students receive some type of financial assistance. Dunwoody is able to subsidize part of the tuition and offer financial aid to students because of contributors like you. Below are some of the ways to make a gift to the College. For additional information on how you can make a difference in the education of Dunwoody students, contact the Office of Development and Alumni Relations at: (612) 381-3061 or visit [www.dunwoody.edu/donate](http://www.dunwoody.edu/donate).

### WAYS TO GIVE

- **CASH** donations of all amounts can either be designated for a particular area of interest or designated as an unrestricted gift.
- **CHECKS** should be made payable to Dunwoody College of Technology.
- Charitable gifts of appreciated **STOCK** offer a double tax benefit. In addition to receiving the charitable income-tax deduction for the full fair-market value of the stock, you could avoid any potential tax on the capital gain.
- Dunwoody accepts **CREDIT CARD** payments using Discover, Master Card and Visa. American Express is accepted online. Setting up a monthly payment plan is easy and spreads the payment over the course of a year.
- Identified **EQUIPMENT AND SUPPLIES** support redirects operating budget support away from financing goods to directly funding programs and services to help students, are eligible for tax receipt and provides visibility for your business.
- An outright gift of **PROPERTY OR LAND** allows you to avoid capital gains taxes and take a charitable deduction on the fair market value of the property, up to 30% of the donor's adjusted gross income. If the gift is made with retained life estate, this allows you to live in the property until death, at which time the property is transferred without going through probate.
- Dunwoody is proud to have more than 115 current members of the Dunwoody Legacy Association, made up of alumni and friends who have made provisions in their **WILLS OR ESTATE PLANS** for the College. Your will is more than just a legal document. It reflects your personal values, love and concern for family, friends, and your community. One way to show your love and concern for others is to include a bequest to charitable institutions such as Dunwoody.

### AREAS OF SUPPORT

- Contributions to Dunwoody's **ANNUAL FUND** make it possible to subsidize student tuition by keeping operational costs as low as possible. Annual Fund gifts can be made through automatic withdrawal, check, credit card payment or via the Web. Dunwoody also encourages those who have matching gift programs through their companies to take advantage of those programs.
- Dunwoody **SCHOLARSHIP** contributions support the General Scholarship Fund and contributions can be made in the name of a loved one. Dunwoody scholarships are offered in many different varieties, including program-specific, need-based, merit-based, and organization affiliations. Dunwoody students are grateful for the scholarship support they receive to pursue their Dunwoody education.
- Gifts made to **SPECIAL PROJECTS** help to maintain and create new facilities, endow scholarships, develop new programs and support capital improvements.

### WAYS TO HONOR A LOVED ONE

- Preserve your spot in Dunwoody's history by placing a brick order today. Your brick will be displayed in Dunwoody's **ALUMNI AND FRIENDS WALKWAY** outside the Carlson Commons entrance. The walkway efforts support Dunwoody's capital initiatives.
- An **ENDOWED SCHOLARSHIP** in the name of an instructor, loved one or alumnus creates permanent support and is often one of the highest honors and levels of gift options.
- Memorializing a loved one by **NAMING A CLASSROOM, LAB OR PROGRAM AREA** allows the donor and family the opportunity to revisit the location and witness the good the gift has done.
