

DUNWOODY

Graduate to the *Good Life*sm

WELCOME

Dunwoody College of Technology is a private, not-for-profit, endowed institution of higher education providing a variety of daytime and evening programs in the following academic areas:

- Applied Management and Entrepreneurship
- Automotive Technology
- Building Design, Construction and Service Technology
- Computer Technology
- Design and Graphics Technology
- Health Sciences and Technology
- Interior Design
- Robotics and Manufacturing

These career-focused, full-time and part-time programs include Associate and Bachelor degree options along with shorter Technical Diploma and Technical Certificate programs.

The Dunwoody Difference

The Dunwoody Difference is a brand of education that teaches problem-solving and critical thinking along with practical, real-world skills. It's a rigorous style of hands-on, applied learning that places great demands on students and requires discipline and personal responsibility. It also fosters such values as work ethic, teamwork and punctuality. The end result is "graduates who are worth more" — more to employers, to their families and to their communities.

We've built this "Dunwoody Difference" over nearly a century while educating more than 300,000 men and women, many of whom have gone on to become leaders in their respective industries, or entrepreneurs who own their own businesses. Our students appreciate the value of being part of the broader Dunwoody community, which is comprised of eager classmates, committed faculty and administration, wise and helpful alumni and well-connected industry partners. In turn, employers respect a Dunwoody education and repeatedly hire our graduates.

SUCCESS

Dunwoody Fast Facts

Enrollment:

Approximately 1,600
(fall 2009)

Financial aid:

More than 85% of Dunwoody
students receive financial aid

Accreditation:

Higher Learning Commission

Degrees offered:

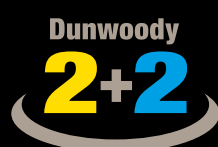

Associate of Applied Science,
Bachelor of Science, Technical
Certificates and Technical
Diplomas

Today, more than two-thirds of today's fastest growing occupations require technical education, and in that area, Dunwoody is unsurpassed. We are also the leader in connecting graduates with employers, with a focus on career placement that permeates through the entire Dunwoody community, from administrators, to faculty, all the way to successful alumni. Dunwoody's academics are known for being rigorous, but our Joel Elftmann Student Success Center and our heralded Gateway program provide an academic jump-start to ease the transition to college. The committed staff of the Elftmann Student Success Center (funded by one of our many successful Dunwoody grads) provides academic support every step of the way.

An Associates degree may just be the beginning.

For many of Dunwoody students, a two-year degree is just the start. Dunwoody's revolutionary 2+2 concept means every graduate of a Dunwoody two-year Associate degree program is automatically qualified to be admitted into one of our breakthrough Bachelor degree-completion programs if they would like to continue their education.

That means Dunwoody students can start their career after just two short years and then begin working on their Bachelor's whenever they're ready. And because our Bachelor's courses – the second part of the 2+2 – are taught on evenings, weekends and online, they can keep working full-time while completing their education. And their employer may even help fund their Bachelor's.

How to apply

To learn more about how you can Graduate to the Good Lifesm, call (612) 374-3041 or (800) 292-4625. To apply online, visit dunwoody.edu. Dunwoody's Admissions team is committed to working with you to ease and simplify the admissions process and provide all the necessary information regarding our academic programs, degree opportunities, financial aid, expectations and everything else that enters into such an important decision.

Dunwoody's focus on career placement permeates through the entire Dunwoody community, from administrator to faculty, all the way to successful alumni.

CAMPUS

A campus in the heart of it all

Dunwoody College's campus is situated on the western edge of Downtown Minneapolis, directly adjacent to the Minneapolis Sculpture Garden, Parade Stadium and Parade Ice Garden. We're a short walk to the exciting Walker Art Center and Loring Park, and only a slightly longer walk to the center of Minneapolis and Target Field, the new home of the Minnesota Twins.
