ANNUAL REPORT
Recognition of Dunwoody donors

2-3 | COVER STORY
Alumni Award Winners
Larry Raasch (left) and Jack Mowry
Larry Raasch has put together a stellar 30-year career in the construction industry; however, Larry’s success in the industry is not the only thing that makes him an outstanding alumnus. He has also put in many hours of volunteer work on behalf of Dunwoody College.

Born in suburban Chicago and raised in New Orleans, Larry had strong family ties to Minnesota, which led him to come back to the area and enroll in Dunwoody. He graduated from Architectural Drafting & Estimating in 1977 and went to work as the head of the Drafting & Estimating Department at Fabcon, Inc. in Savage, Minn.

Of his college experience, Larry has said, “Dunwoody taught me how to be on time, that you always do your job, and that you follow the ethics of the field.”

After three years at Fabcon, Larry moved on to Kraus Anderson as a project manager. There, he worked alongside many other Dunwoody alumni and eventually became a vice president. In 2005, he and another Dunwoody alum, Gregg Paschke, decided to go on their own and started Prime General Contractors, which specializes in corporate, medical and senior housing construction.

Larry’s volunteer work with Dunwoody includes serving as a member of the Alumni Association’s Board of Managers for more than a decade — from 1998 to 2010. While a member of the board, he served as chair of the fundraising committee, vice president and, finally, as president from 2008 to 2010. During his tenure as president of the Board of Managers Dunwoody completed its $30 million Good to Great campaign. Larry has been an enthusiastic and generous supporter of the College and has spread that enthusiasm to his fellow alumni.

For combining industry success with giving back to his alma mater, Larry Raasch is the 2011 recipient of Dunwoody’s Alumni Achievement Award.
Dunwoody College of Technology held its annual Evening of Recognition Sept. 27, 2011, on campus. The event brought employees, alumni and friends of the College together to celebrate Dunwoody and recognize this year’s honorees.

2011 Alumni Entrepreneur of the Year: Jack Mowry

Jack Mowry has said that Dunwoody gave him skills and confidence. Both served him well as he took his business Metal Craft from the basement of a strip mall to an 85,000-square-foot building in Elk River, Minn. It takes an enterprising spirit (and a lot of hard work and patience) to build a multi-million dollar business from scratch. That’s why Jack Mowry is the 2011 recipient of the Alumni Entrepreneur Award.

After growing up on farms in rural Minnesota and South Dakota, Jack moved to the Twin Cities and took a six-month course in machining at Dunwoody College of Technology. After working as a machinist for several years, he decided to get into design, returned to Dunwoody and completed a degree in mechanical drafting.

As it turned out, the money to be made as an apprentice draftsperson was lower than what he could earn as a machinist. Jack returned to machining and worked as a night foreman for six years. Then in 1978 he leapt at the chance to start his own machine shop — Metal Craft — with a partner. The business did well and soon had its own 5,000-square-foot building.

After a couple of years, Jack bought out his partner and became sole owner of the company. Metal Craft continued to grow throughout the 1980s, but Jack was looking for a way to bolster business due to the cyclical nature of machine shop orders. He had read about an expected growth in parts of knee and hip replacements and decided to begin creating close-tolerance parts for surgical instruments. The move paid off, and today Metal Craft supplies parts to medical companies nationwide, including Medtronic, American Medical Systems and Zimmer Spine. In 1996, Metal Craft purchased Riverside Machining and Engineering. Located in Chippewa Falls, Wisc., it specializes in aluminum vacuum brazing and precision machining, and serves mainly clients in the defense industries. Together the two companies have 185 employees.

Jack has moved into an advisory role with Metal Craft, but the business he built is still thriving under the leadership of his daughter, Trisha, and son, Sean.

2011 Partnership Award: Hunt Electric

Hunt Electric Corporation is one of the nation’s leading electrical construction companies. Founded in 1965, Hunt has completed numerous projects in more than 40 U.S. states. From data centers and hospitals to power generation, automotive manufacturing, casinos and more, Hunt has a broad range of experience in electrical design, construction and maintenance.

Like Dunwoody College, Hunt Electric, which is headquartered in St. Paul, is a Twin Cities original. And the two organizations have been partners for decades. Hunt has hired numerous Dunwoody graduates over the years, including its current president Mike Hanson, who currently serves on the College’s Board of Trustees and is a 1985 Electrical Construction & Maintenance grad. It has also been a generous friend of the College. Volunteers from the company have helped raised thousands of dollars for scholarship and program support and have served on program advisory committees and the Alumni Association Board of Managers. Hunt Electric truly lives up to its motto “Success Through Service” both with its clients and relationship with Dunwoody.
In 1991, Cindy left the halls of academia and hit the pavement of the automotive lots at Morrie’s Imports — a location that she knows well, that, in fact, is part of some of her earliest childhood memories.

Working alongside her father Morrie Wagener, Dunwoody class of 1957, Cindy helped guide and direct the growth of what is today Morrie’s Automotive Group. Morrie’s represents 11 distinctive brands, eight separate locations and some 500 employees.

Together they have paid attention to the underlying principal that it’s the car buying and servicing experience that makes the difference to the customer.

Cindy spoke at the annual Kate Dunwoody Luncheon about her experience in a traditionally male-dominated industry while keeping energy and time for family. As an added bonus, key women with Morrie’s Automotive Group participated in the luncheon activities.

For information about how you can help Dunwoody students through scholarships, contact Mary Meador at mmeador@dunwoody.edu or (612) 381-3048.

Corrie Turner, an Architectural Drafting & Estimating student, received the Kate Dunwoody Scholarship and was recognized at the annual luncheon held Oct. 27, 2011, on campus.

Corrie is enjoying her education. “Now when I talk with my dad, he says we’re talking the same language: the language of construction. We discuss the strength of steel joists and computer programs I use for estimating, like REVIT,” said Corrie. Corrie’s mom’s line is ‘you go girl’ because she sees her daughter working hard for a good career that also happens to be a non-traditional field for women.

Corrie was always good at math and after a visit to Dunwoody she thought she could combine that with her interest in design. “I didn’t even know what a ‘stud’ was. Now I attend Construction Specifications Institute (CSI) meetings with architects and construction professionals to learn about new products, technologies and systems,” she said. The hands-on approach to learning provides Corrie challenge and immediate success.

At Dunwoody, Corrie has tremendous leadership opportunities and takes full advantage as a member of the honor society Phi Theta Kappa and the student chapter of the National Association of Home Builders (NAHB). In fact, Corrie is leading a student team from Dunwoody to the national conference for the NAHB Residential Construction Management Competition in February 2012 in Florida. Teams are given a home design and must demonstrate cost effective, green solutions with justification and estimations for all materials and systems they propose.

Corrie’s dedication to her education is evident in her willingness to work hard to make it happen. She is a server at two restaurants, worked on the campus grounds crew during the summer months, and last year worked nights on campus in maintenance. Because of her hard work, academic excellence and financial need, Corrie was awarded the Kate Dunwoody Scholarship. “I’m grateful. I’m living on my own; the scholarship help means my student loan burden is decreased,” she said.
In this difficult economy, more than 85% of students at Dunwoody need financial assistance to continue their technical education. Bank loans are harder to secure, families are out of work and can’t help out, and part-time jobs have disappeared.

That is where scholarships can really make a difference. And that is where you can make a difference. If you would like to directly help a student, there are a few ways you can do so:

• Contribute to the Dunwoody General Scholarship Fund. This fund distributes scholarships to students who have financial need and a good academic record. It takes into account their attendance, too! Any amount can be contributed to help out.

• Support an Annual Named Scholarship. With a gift of $1,000 or more, you can name your scholarship and set the criteria the student must meet to receive it. You will be able to meet the student recipient and will receive a thank you from “your” student.

• Endow a Named Scholarship—with a gift of $5,000 or more, you can provide a scholarship in perpetuity to a student with the earnings from your gift.

Need more information? Mary Meador will be glad to help you. Call her at (612) 381-3048 or email her at mmeador@dunwoody.edu.

The Compass 5

Connecting through giving

Cody Smith was awarded the Harold N. and Ginger Anderson Scholarship for 2011-12. Though he and the Andersons have never met, their lives are forever connected through Dunwoody College of Technology.

“Someone helped me,” Harold said as he sat in his sunny breakfast nook.

“When I started at Dunwoody in 1939, the Depression was lingering on. I was told that my tuition was paid. General Mills had a machine shop, and I guess they helped some of us,” said Harold. Harold is sure he wouldn’t have received a Dunwoody education if it hadn’t been for that support.

After serving in the US Navy, Harold had a long, successful career with Bemis Company, eventually becoming president of the packaging machinery division. He and his wife, Ginger, raised four sons. Harold credits Ginger for their decision to start a scholarship fund at Dunwoody. “Ginger wanted to help students and she really liked Dunwoody.” Each year the Andersons fund a scholarship — Harold is increasing his contribution because he has seen the tremendous impact that his gift makes. “I feel I’m capable of helping now. I want to do my part in relieving some of the financial stress students are facing today.”

The Anderson Scholarship is awarded to a second year student with academic success and financial need. “I appreciate what kids are going through. They are interested in getting their education, but some get discouraged because of money — well, scholarships really help,” he said.

Cody Smith can attest to that! He is the recipient of the Anderson Scholarship this year. Having someone that cares enough to provide financial help is a real motivator. In Cody’s thank you letter he writes, “I cannot possibly tell you how much this helps me in being able to attend school at Dunwoody. I am enrolled in the mechanical design program and have been pleased with the high caliber instructors. I have only had one year of school, but it feels like two because of all the information the teachers jam into one day — you really get the best bang for the buck.”

Interested in making a significant difference in the life of a student at Dunwoody with an annual scholarship or an endowed scholarship? Please contact Mary Meador at (612) 381-3048 or mmeador@dunwoody.edu. Information online at www.dunwoody.edu/alumni/donate.html.
Industrial Engineering Technology

The Industrial Engineering Technology bachelor’s completion program was launched last August with 14 students. Not only is it the first manufacturing-focused bachelor’s program in the College’s history, but it was also the first to be on the semester system (Dunwoody is moving all programs to the semester system in fall 2012).

The degree is focused on manufacturing graduates and introduces them to current issues in the application of engineering principles, preparing them for practical design and production work, rather than for jobs that are more theoretical. Employers usually regard technology program graduates as having skills between those of a technician and a theoretical engineer.

Industrial engineering professionals design and manipulate systems in an effort to optimize performance and quality. Such skills across various industries, including manufacturing companies needing to maximize output and minimize waste, healthcare facilities trying to minimize patient wait times and maximize staff resources, and construction companies looking to meet deadlines without sacrificing safety.

Darwnoody grows its bachelor’s programs

This year the College expanded its bachelor’s options by adding one specifically for manufacturing programs and rolling out a fully online version of its applied management program.

“Having this bachelor’s degree completion program provides our Dunwoody graduates access to education many need to advance their careers as they move into management,” President Rich Wagner said.

Under the 2+2 program, Dunwoody graduates get credit for their two-year technical degree when they enter a bachelor’s completion program. Graduates from other colleges with two-year technical degrees are also eligible to transfer their coursework in and work experience may also count towards their degree.

“In the past we worked on articulation agreements with other institutions,” Wagner said. “Unfortunately, many Dunwoody graduates found that they could not get full credit for coursework and many locations were inconvenient.”

Dunwoody’s bachelor’s completion programs are designed in collaboration with industry. Many employers are finding that their technicians need additional training when they’re ready to take on greater responsibility. For example, the applied management program covers topics such as human resources, financial management and basic accounting, quality improvement and marketing.

There is great flexibility built into Dunwoody’s degree completion program. All courses are offered at night, online or on Saturdays. Some students complete their course work in two years, others choose to pace it out longer in order to accommodate family and work responsibilities. Offerings include:

• Bachelor of Science in Applied Management
• Bachelor of Science in Applied Management – Management Information Systems
• Bachelor of Science in Industrial Engineering Technology

The College is also working to get additional bachelor’s completion programs approved where there is a need, such as in Construction Sciences.

For information about these and other offerings, contact Dunwoody admissions at (612) 374-5800 or info@dunwoody.edu.
All about Charitable Gift Annuities

If you are retired, you might be worried about your portfolio or living too long and running out of money. You can support Dunwoody and receive steady payments during your retirement years with a charitable gift annuity.

With a charitable gift annuity you can get an immediate tax deduction, a decent return, zero volatility — all while supporting Dunwoody College’s mission to educate future generations.

How It Works

You make a donation of cash, stocks or other assets to Dunwoody, in return, Dunwoody promises you a lifetime of fixed payments. Simplifying matters, Dunwoody uses the rates set by the American Council of Gift Annuities and provides all the information you need for your tax deduction.

For Example

If you are 70 years old and make a $10,000 gift the payment rate is 5.8%. There would be an immediate $2,701 deduction. Annual payments would be $580; the tax free portion is $458, with the remainder $121 reported as ordinal income. After 15.9 years the entire annuity payment becomes ordinary income. After your lifetime, the remainder supports the students and programs at Dunwoody.

Benefits

- Fixed payments for life
- Annual payments are partially income-tax free
- Charitable gift supports Dunwoody College programs and students
- Immediate tax deduction
- Annual payments are not affected by ups and downs in the economy
- The gift annuity can be for one or two people
- You may be able to eliminate capital gains if you use appreciated stock to make the gift.

To learn more, please contact Jennifer Kahlow at jkahlow@dunwoody.edu (612) 381-3061 or (800) 292-4625.

IN-KIND GIFTS
One man’s junk is another man’s treasure

The College has a wonderful tradition of working closely with industry to receive donated equipment for hands-on learning. Although never junk, donated equipment in good condition keeps our students proficient on the latest and greatest technology. Companies that are upgrading on models can donate their used equipment to Dunwoody.

Dunwoody’s Manufacturing Program Advisory Committee (PAC) volunteers have found that to be the case. PAC member and Machine Tool alumnus, Dave Kari, knew that Dunwoody was in need of surface grinders for the Machine Tool program. Dave approached his Minneapolis employer Top Tool. He knew they were upgrading and thought they might be willing to donate their old grinders to Dunwoody: and they did! Craig Rix (who is also a Machine Tool Technology PAC member) was able to secure two manual mills from BTD, Inc.

Donated equipment helps to provide quality training for our students, savings to the College, and a tax benefit to the donating company. If your company has equipment, please consider donating to Dunwoody. Contact Mark Skipper at (612) 381-3054 or mskipper@dunwoody.edu.

For a list of needed equipment go to dunwoody.edu/alumni/donatedequipment.html

Annual Fund Kick-Off

More than 50 volunteers started fundraising this fall with the goal to help Dunwoody’s Annual Fund reach the $1,100,000 mark by June 30, 2012. Many of them gathered for a Kick-off Breakfast in October to organize and coordinate their team efforts. If you’re interested in helping Dunwoody raise money from businesses, foundations and individuals, please contact David Kline at (612) 381-8240 or dkline@dunwoody.edu. Thank you volunteers!
As members of the “Music Box Society” Bernie and Norma Gaffron share their love and collection for this fascinating hobby with fellow enthusiasts around the world. A 1951 Engineering Drafting & Design Technology alum and 3M retiree, Bernie is also an accomplished wood carver.

The 19th century music box combined engineering, craftsmanship and beauty to produce magical music. It consists of a brass cylinder and numerous steel pins that plucked a tuned steel comb as the cylinder rotated with the aid of a clockwork motor. The one pictured at the top of the page of his vast collection was built sometime between 1880 and 1900. According to Bernie, these were popular with pastors that served rural congregations; much of the music was church music, so the crank organ was the perfect addition to any church service.

There are two very special pieces in this collection that were made from scratch by Bernie: A parade-size pipe organ complete with 97 pipes, snare drum, base drum, cymbals, and plays from paper rolls using a pneumatic vacuum system (pictured left); and a calliope fitted out with brass whistles — also used for parades. “I took a machine shop class at Dunwoody and always worked in and around a machine shop,” he said. “I started this collection and building the pipe organ even before I retired.”

What do you collect? Contact Jennifer Kahlow at jkahlow@dunwoody.edu or call (612) 381-3061 or (800) 292-4625 to share your collection.
Alumni & Friends Golf Tournament

The 8th Annual Alumni & Friends Golf Tournament had a banner year raising more than $19,000 for student scholarships. The Baker Foundation foursome won the tournament for the third year in a row. A great time was had by all golfers at Legends Golf Club in Prior Lake, Minn. If you’d like to play next year, sign up by contacting Kat Christopherson at (612) 381-3064 or kchristopherson@dunwoody.edu. If you register before June 30, 2012 you can take advantage of the early bird discount. The 2012 tournament will be on Tuesday, Sept. 18, 2012. Thank you to all our tournament sponsors for their support of Dunwoody students.

Leadership changes to the Dunwoody Alumni Association’s Board of Managers

A warm welcome to three new members:

• Diana Anderson, Machine Tool 2007. Diana is a Machinist with General Mills, Inc.
• Alysse Johnson-Strandjord, Graphics Design 2010. Alysse is a Junior Graphic Designer with YYES, Co.

The Board of Managers thanks those leaving the board for their leadership and commitment to the College, including Al Einberger, Jennifer Larson and Harlan Halquist.

1940s

Helmer Haakenson
Electrical Construction 1948
Helmer lives in Luverne, Minn. He plays golf three times a week with a nine handicap! He volunteers at the Vets Home calling Bingo twice a month. “I paid attention. I wanted an education,” he said of his time at Dunwoody. Helmer had completed 9th grade and in 1940 he joined the Airforce. He was a radar technician. The GI Bill allowed him to study electronics at Dunwoody. For 32 years he worked as a Master Electrician in the Sioux Falls area.

Odell Bratland
Automotive Service Technology 1949
Odell is retired from ARAMCO in Saudi Arabia in 1985 and still enjoys playing golf. He lives in Riviera Beach, Fla.

Lyman Hein
Auto Service Technology 1949
Lyman and Mary Hein of Rochester, Minn., recently celebrated their 62nd wedding anniversary. In the winter they spend time in Texas.

Dale Hoiseth
Electrical Construction & Maintenance 1949
Lives in Wayzata, Minn. with his wife Faith. He retired from IBM and enjoys woodworking.

1950s

William “Bill” Dolter
Electrical Construction 1957
“Because of my training at Dunwoody, I was able to do well in my career,” Bill said. “I worked with architects including LHB Architects & Engineers and other firms designing and checking electrical systems in more buildings than anyone else in the Duluth area. I was qualified because I learned a lot at Dunwoody.” Bill lives in Esko, Minn.

continued on next page
1960s

Robert J. Pirkl
Automotive Service Technology 1963
Now retired, Bob is restoring a 1929 Ford Model A, fishing, hunting pheasants, golfing and mowing at a golf course in the summer months in Blooming Prairie, Minn.

Roderick J. Ashton
Refrigeration & Appliances 1968
Rod is a member of the Board of RSES (Refrigeration Service Engineers Society) and a CMS (Certificate Member Specialist). He regularly attends RSES meetings at the Fort Snelling Officers Club on the third Tuesday of the month. Even though he is retired, Rod remains active helping other professionals obtain and maintain education and certification. He lives in St. Paul, Minn.

1970s

John Baruth
Automotive Service Technology 1974
John owns Diesel & Import Auto Truck Service, Inc. in Blaine, Minn., and lives in nearby Ham Lake.

Flora Gutierrez
Baking 1976
Flora is a contract worker with the Dept. of Education in Papua, New Guinea. Flora came to Dunwoody from the Philippines, sponsored by the Wheat Associates USA. Flora writes: “Dunwoody is an excellent institution for developing skills for life. I have contributed what I learned to so many people both in my own country and Papua New Guinea. Thank you Dunwoody. You’ve changed my life to what I am now.”

1980s

Tom Baruth
Automotive Service Technology 1986
Tom lives in East Bethel, Minn. and works with his brother John at Diesel & Import Auto Truck Service, Inc.

Jerry Becher
Electrical Construction & Maintenance 1987
Jerry lives in Loretto, Minn., and is the owner of J. Becher & Associates Electrical Company in Rogers, which does all types of residential electrical work. He also is part owner of several restaurants including Mama G’s in Maple Grove, Minn., which is named after his mom Gerri.

2000s

John Graunke
Electrical Construction & Maintenance 2001
John lives in Buffalo, Minn., with his wife and three children. He is a Senior Project Manager for Ace Electrical in Plymouth, Minn.

Jared Broghamer
Architectural Drafting & Estimating 2002
Jared works at Mortenson Construction. Since 2007, he has volunteered numerous hours with “Rebuild Together Twin Cities” and in 2011 received the “Community Superstar Award.”

Austin Wagner
Electrical Construction Design & Management 2007
Austin lives in Minneapolis and is a Safety Director and Designer/Estimator for Ace Electrical in Plymouth, Minn.

Brady Peterson
Electrical Construction Design & Management 2009
Brady lives in Maple Grove, Minn., and is working as the Residential Manager for J. Becher & Associates in Rogers, Minn.

September 29, 2010

Dunwoody Trustee Tamara Olsen died July 4, 2011, after a year-long battle with cancer. She was 51. Tamara was born in Wadena, Minn., to Donn and Shirley Hjelle. After editing the Harvard Women’s Law Journal, Tamara joined the Gray, Plant, Mooty law firm in 1986 and began her distinguished practice in employment and higher education law. In 2007 she became the firm’s first female managing partner and was chair of the board. Tamara had been selected as a Super Lawyer and one of America’s Leading Lawyers. She taught at the University of Minnesota Law School and at North High in Fargo, ND. Tamara served as an Elder at Hope Presbyterian Church and on the boards of People Inc. and Dunwoody College of Technology. Dunwoody was fortunate to have her leadership.

Tamara is survived by her husband of 31 years and high school sweetheart, Michael, and her children, of whom she was very proud, Corbin and Johanna.

Ken Malmstrom,  
Sheet Metal 1933, died Oct. 31, 2011. Ken was a generous supporter of the school and a past Alumni Achievement Award recipient. Ken was to turn 100 years-old on March 6, 2012.

Student Leadership Awards

Oscar Gomez and Steve Domeier, both 2011 Construction Supervision graduates, were the
2011 recipients of the Student Leadership Award for academic excellence, exemplary leadership
and outstanding school spirit presented at the Alumni Association’s Annual meeting. Steve was
unable to attend because he landed a job in Denver, Colo. Pictured: Oscar (middle) with
President Rich Wagner (left) and Alumni Board of Managers President Bob Strom.

Calling all snowbirds

Spending time in Arizona or Florida in the winter? Call 800-292-4625 or email Jennifer Kahlow
at jkahlow@dunwoody.edu for information about alumni gatherings.

An alumni gathering was held August 10, 2011, in Rochester, Minn. President Rich Wagner (back row,
far right) along with Dunwoody alumni and Engineering Drafting & Design student, Alex Gar-Sing Wong,
(standing, far left) spoke at the dinner.
DEAR FRIENDS:

We are one year closer to our 100th anniversary. Dunwoody has a great reputation, built by thousands of alumni who accomplished great things after graduation. Our legacy is solid because of the accomplishments of all of our alumni. But to ensure we perpetuate our legacy for another 100 years, we must continue to deliver the Dunwoody Difference.

The Dunwoody Difference is what makes our graduates stand out from the pack. It is defined by a rigorous academic experience that requires more time in the classroom, labs and shops than similar institutions. It is an hands-on education that requires students to not only study theory, but also how to apply theory to real-world applications. It is discipline that requires students to show up on time and prepared. It is world class partnerships with business and industry. It is faculty who are experts in their fields and staff who are committed to student success. It is this Dunwoody Difference that changes people’s lives, builds opportunities for graduates to achieve success, and makes our graduates highly desired by companies that need skilled technicians.

For nearly 100 years, our great institution has built opportunities for people to succeed. We continue to hear from graduates about how this great institution has changed their life. A recent graduate of Dunwoody wrote:

“I can tell you that when I started at Dunwoody, after high school I wanted to be a graphic designer and now 11 years later the time has come. What I learned at Dunwoody has had a huge impact on my career and my work ethic! I hope that your students realize what a great school they’re going to and how great the teachers are!!”

Another student wrote this in an e-mail sent to the College:

“I probably wouldn’t be here if it wasn’t for the great education I got at Dunwoody. That played a big part of me getting an interview for this position that lead to me getting a fulltime job. “

And finally,

“Let me start off by saying that I am very glad that I got my education from Dunwoody. I have used every bit of it in these few months that I have been working at…”

I thought it was important to share the ongoing success of recent Dunwoody alumni. We can celebrate a great legacy and know that we continue to deliver the Dunwoody Difference that provides graduates who have solid technical skills, are disciplined and ready to hit the ground running the first day they show up for work. The Dunwoody legacy lives on through our newest graduates. Together we change lives through technical education, and our graduates continue to make a difference as leaders, entrepreneurs and the best technicians at their companies. Together we build the ability to deliver the Dunwoody Difference. Thank you for your generous support — you have made a difference. Stay committed. Be proud. We are Dunwoody!

Rich Wagner, Ph.D.
President
VISION
Dunwoody’s vision is to provide “for all time” a place where people of diverse backgrounds receive learning opportunities that prepare them for “the better performance of life’s duties.”

MISSION
The mission of Dunwoody is to provide career-focused, applied education leading to immediate jobs and successful careers in business and industry.

CORE VALUES
- We value practical, applied learning.
- We believe in instilling a strong work ethic.
- We embrace continuous quality improvement as our way to become best in class.
- We value a diverse faculty, support staff, and student body and their unique contributions to an inclusive Dunwoody community.
- We value high performance within an environment of trust, respect, teamwork, and personal accountability.

2009-2010 Dunwoody Recognition of Contributors

As a private, tax-exempt organization, Dunwoody College of Technology could not prosper without support and gifts from individuals, businesses, foundations, and other community organizations. This list of contributors honors those people and organizations who gave to Dunwoody from July 1, 2009 through June 30, 2010. Each of these contributors deserves our deepest thanks and appreciation. Businesses owned or operated by Dunwoody alumni are identified with *. The names of alumni contributors are followed by their year of graduation or last enrollment. The names of current employees of Dunwoody College of Technology are followed by $. The names of retired employees are followed by R. If your name has been inadvertently omitted or misspelled, or if your company is alumni-owned or operated and has not been so indicated, please accept our sincere apologies. Please bring the oversight to our attention by contacting the Development Office at (612) 381-3052, or at mmarion@dunwoody.edu.

Dave Anderson | 1971 Architectural Drafting & Design

“There’s still a need for technical education today. Dunwoody instills discipline and stresses accuracy. Everyone in my class entered the industry and did very well in their careers.” Dave’s career at Fabcon, Inc. in Savage, Minn. spans 37 years. Dave points to his Dunwoody technical background as an important asset in his role in sales at Fabcon.

Helmer recently participated, along with George Doust (1950 Automotive) in an Honor Flight from Sioux Falls, S.D. Honor Flights take WWII vets to visit Washington D.C., including the WWII Memorial.
Howard Wong | 1977 Electronics Systems Technology

Howard has enjoyed a successful career with IBM, which he started right out of Dunwoody. “I don’t think I knew what IBM was, but they were at Dunwoody recruiting graduates!” Howard visited campus in the fall and brought a photo of his classmates on the front steps. “Dunwoody is now a Wong family tradition with me, my son Andy and nephew Alex.”

Andrew Heung Wong | 2004 Computer Networking Technology

“Dunwoody gave me the work-related training I was looking for. Like my dad, I was hired by IBM before I graduated!” Andy is now a Technical Analyst in Software and Hardware Purchasing at AgriBank in St. Paul, Minn. He exercises his creative side with photography and enjoys the great outdoors with his new SV650 motorcycle.

ANNUAL FUND DRIVE / INDIVIDUAL DONORS

Gerald Krzmarzick
1956 Radio, TV & Electronics

"Dunwoody prepared me not only in my specialized tech area, but also just generally. Dunwoody provided the base — I needed that foundation. Learning wasn’t easy for me; my Dunwoody instructors were always there to help." Gerald retired from a successful career at IBM in Rochester, Minn.

---

Ben Ellsworth | 1956 Building Construction

“At Dunwoody I learned to be detail oriented. I lived by a few simple truths: better build it right, because it’ll stand there for 40+ years, and it’s not going to fix itself.” Ben built well over 90 homes in the Rochester, Minn., area, including the home where he and his wife raised their four children.

Norman Welch | 1972 Electrical

“At Dunwoody you needed to learn how to learn, which made it easier in all areas of life. Dunwoody made it easy for me to compete [for a position with the Federal Aviation Administration] — you needed to be in the top 10% in order to even be considered.” Norm retired from the FAA. He enjoys gardening.
DUNWOODY LEGACY ASSOCIATION

WILLIAM H. AND KATE P. DUNWOODY LEGACY ASSOCIATION

The Legacy Association recognizes donors who have provided for the school through their wills, trusts, gift annuities, and other deferred gifts. In addition to the individuals listed below, 30 donors have informed the school of their intention to make deferred gifts to Dunwoody but prefer to remain anonymous. * Indicates deceased. If at the end of last name, both individuals are deceased. The names of current employees of Dunwoody College are followed by $; the names of retired employees are followed by @.

Vergil *1949, and Myra Neitzel

The newest members of Dunwoody’s Legacy Association.

“Who better to decide than the institution itself?” Dean and Nell are the done so.” When asked how those dollars should be used, Dean replied, “I always thought I should include Dunwoody in my estate plans and have now...”

Although Dean was disappointed that the Baking Program was discontinued, he decided that supporting Dunwoody isn’t about specific programs, it’s about investing in students who desire a Dunwoody education. Dean gives faithfully to the Annual Fund and said, “I always thought I should include Dunwoody in my estate plans and have now done so.” When asked how those dollars should be used, Dean replied, “Who better to decide than the institution itself?” Dean and Nell are the newest members of Dunwoody’s Legacy Association.

- Jeffrey M. Ylinen, Provost
Ways to Give

Dunwoody College of Technology is deeply grateful for the generosity of those who provide financial support. Donations assist with scholarships to deserving students, help to recruit and retain caring, professional faculty and provide a safe, inviting campus equipped with current technologies. For assistance with your gifts, please contact the Office of Development and Alumni Relations at (612) 381-3048, toll free at (800) 292-4626 or on the web at dunwoody.edu/donate. Whether you are interested in supporting Dunwoody’s general operations or in designating your gift, please review the following convenient options:

OUTRIGHT GIFTS YOU CAN MAKE TODAY
• **Cash, check or charge** may be the most convenient way to give. Checks can be made to Dunwoody College of Technology. We accept Discover, Master Card and Visa. It is also possible to set up a monthly giving plan by check or credit card.

• **Matching gifts** can double your giving! Please check with your HR department to see if you work for a company that matches gifts to Dunwoody.

• **Appreciated stock** offers a significant tax benefit by helping you avoid capital gains while providing an income-tax deduction for the full fair market value of the asset.

• **Gifts of Life Insurance** are a practical way of providing significant support while providing you an immediate charitable deduction upon transfer.

• **Gifts of identified equipment and supplies** allow Dunwoody to focus on programs and services to help students.

• **Gifts of property or land** allow you to avoid capital gain tax and take a charitable deduction on the fair market value up to 30% of adjusted gross income.

• **Charitable Lead Trusts** provide a stream of gift dollars to Dunwoody for a period of time, not to exceed 20 years, then transfers the principal to you or your heirs.

GIFTS THAT BENEFIT US AFTER YOUR LIFETIME – LEGACY GIFTS

The Dunwoody Legacy Association includes 234 members who have made provisions in their wills or estate plans for the College.

• **Bequests** reflect your personal values, love and concern for others.

• **Beneficiary Designations** allow you to designate a percentage or all of a life insurance policy, bank account, or other asset to support Dunwoody.

• **Give My Home, But Live There for Life** allows you to transfer the property at death to Dunwoody without going through probate.

GIFTS THAT PAY YOU INCOME

• **A Charitable Gift Annuity** is a way to make a gift to Dunwoody and receive a partial tax deduction and a lifetime income stream for yourself or others; annuity payments can begin immediately or be deferred to a future date.

• **A Charitable Remainder Trust** is a special tax-exempt irrevocable trust. You transfer cash or assets (especially appreciated assets) to a trust and receive income for life or, if you choose, a certain term of years (not to exceed 20). In fact, the income can be paid over your life, your spouse’s life and even your children’s and grandchildren’s lives with the remainder supporting Dunwoody.

THE ANNUAL FUND – STRATEGIC INITIATIVES

Dunwoody’s Annual Fund helps to meet the general operating needs of the College and is crucial in maintaining academic excellence. The Annual Fund helps by raising the financial support needed over and above tuition, student fees, customized training and endowment earnings. The gifts our supporters make to the Annual Fund are vital to Dunwoody’s success. While tuition provides much of Dunwoody’s income, the cost to operate a quality college is ever increasing.

Monies generated through the Annual Fund support:
• Every student — by lowering their tuition
• Merit-based and need-based scholarships
• Essential student services including financial aid and career placement
• Hiring and retaining the best instructors and staff
• Campus improvements and maintenance

No matter the amount of the gift, each annual fund donor contributes to the strength of Dunwoody’s mission to provide career-focused, applied education leading to immediate jobs and successful careers in business and industry.

For more information on line go to: dunwoody.edu/alumni/donate
The Compass is published and distributed by Dunwoody’s Office of Development and Alumni Relations for alumni and friends of the college. Comments and suggestions are welcome and should be addressed to:
